

Opportunity. It's out there. You see it all around you, but it just exceeds your grasp. **While you daydream, you miss your exit.**

What's the problem? Why is this happening to you?

Planning makes the difference.

Those who fail to plan, plan to fail.

I've heard that before.

We can help.

Really.

If you're going to throw your money around, why not hit the target?

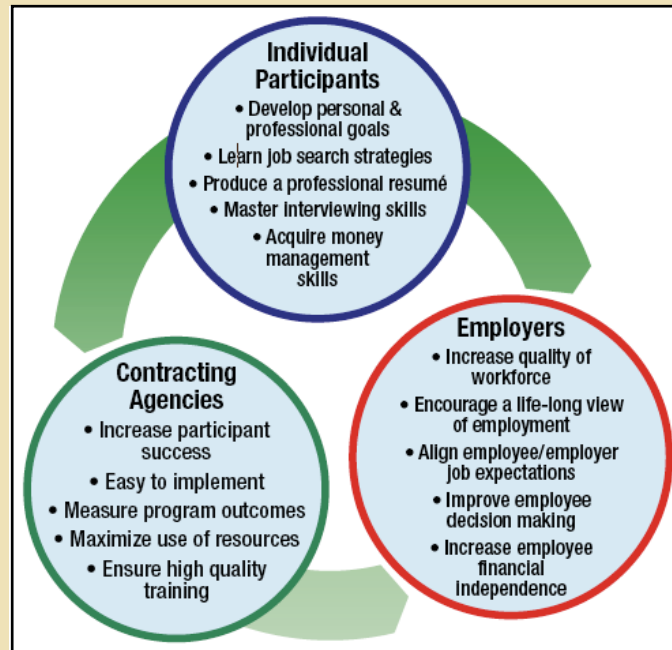

Targeting Success is a computer-based program that's designed to help you achieve your goals. Whether you're a young person beginning your life adventure, or a mature citizen making a plan for the next phase of your life, we can help you focus upon your future.

In twelve lessons, **Targeting Success** helps you focus upon:

- Goal Setting
- Basic Personal Finance
- Financial Institutions and Borrowing
- First Steps Toward Investing
- Saving and Investing
- Community Networking

...but there's more! **Targeting Success** can help you through the challenging work of building your resume, making job contacts, and making the most of interview opportunities.

Benefits

Product Highlights

- Easy to use video, audio and print formats
- Highly motivational
- Self-paced instruction
- Pre- and post-test assessment
- All lessons are fully narrated
- Expert interviews
- Microsoft and Macintosh compatible

In twelve narrated lessons, with worksheets you can print out and save, **Targeting Success** can escort you through the whole process, from writing your resume to structuring your investments. All you do is put the CD in your computer, start the program, and stick to the plan.

Setting goals and meeting them is at the heart of **Targeting Success**. **Your success is our success, too!**

Building your future is as important when you're 70 as when you're 20, and there's time, and a strategy, for both... when you **target success!**
